Mountain.

"Dark purple, shaded with sudden gleams and glory,
like waves in wild unrest,
how wooded billows and steep summit heavy,
Ridge, slope and mountain crest,
brave at her feet with faces turned to meet her
Embraced, apart serene
above her vapour hills whose faces greet her,
The Mountain Queen."

FORDS. Cheaper to own than a Home!

Sole
 Agents:

QUEENSLAND MOTOR AGENCY Ltd.,

Adelaide-street,
 BRISBANE.

THE *Autographic* KODAK

HAS REVOLUTIONISED PHOTOGRAPHY.

**THE KODAK IS THE ONLY CAMERA WHICH
 CAN BE FITTED WITH THE AUTOGRAPHIC IDEA.**

The Autographic Kodak is the only camera in the world that enables the photographer to make a complete record on the negative. You expose in the usual way, then write any data you choose on the film in the time of exposure. Merely open the door at the back, make your entry—as you would in a diary—expose to light, and after development you will find printed on the film the exact identification of the picture as you wrote it.

You can learn to use an Autographic Kodak in half an hour—even if you never used a camera before. It is wonderful simple, due to its simplicity, and it is the greatest photographic advance in 20 years. Write for Autographic Kodaks from 20' to £15/2.

Here is a popular model—

The No. 3 Folding Autographic Kodak is wonderfully compact, simple, and efficient. Takes pictures 2½ x 4 inches. Price £12/6.

If you already own a Kodak, make it Autographic. The only difference between the Autographic and the ordinary Kodak is in the back. There are 11 in. Autographic back to your ordinary Kodak you at once turn it into an Autographic Kodak. This will cost you but a few shillings, and remember Autographic film costs the same price as the regular film.
